Councilman Long moved that the zoning hearing of AREA 13 and AREA 14 be reset for January 28, 1954 at 11:00 A.M. instead of February 11th. The motion, seconded by Councilman Thompson, carried by the following vote:

The City Manager explained this was under the previous subdivision arrangements, as this work was started, but completion was dependent upon the decision of this large trunk line. He stated there was possibly one more contract in this same pending category.

Mayor Pro-tem Pearson inquired about a big drainage problem in the 49th and Grover area. The Director of Public Works stated the Legislature would have to give easements, and they did not grant the easements. The Hospital Board is not in a position to give easements, but when permission is granted, the work can be done.

Mayor Pro-tem Pearson introduced the following ordinance:

Councilman Long submitted the complaint from W. L. SCOURTON, 1176 Graham, that he got only once-a-week pick up on garbage; and this past Saturday he was missed completely. She stated she had another complaint on the Saturday pick-up, which was missed. The Director of Public Works stated all sections of town were getting twice-a-week pick up at least.

Councilman White inquired about the man driving behind the garbage trucks. It was explained he was clocking the different routes for reallocating the time, that it was necessary every two or three years to make such a study as areas were constantly being added.

Councilman White inquired about the opening of the Bridge and the completion of the new Police Building. Both are to be opened sometime in January.

Councilman Thompson requested that the City Manager hand the Council not later than two weeks from now a statement outlining the techniques he expects to use in making the accounting practices and the budget operation practices conform to the new Charter.

Councilman Long inquired about the codification of the ordinances and suggested bringing in a firm to do it. The City Attorney stated 75% of the work on it had been done, but this past year the office had not been able to finish it. Also the Building Code would be about 50% of the code. If the present ordinances were codified with the old building code, and the Council adopted the new one, there would be a lot of additional expense incurred in publishing it. Other ordinances that would be included in it should be revised and are now under study. Councilman Thompson suggested that the City Attorney bring in a recommendation as to what he thought would be necessary to accomplish the codification. The City Attorney stated there would be about a month's work to get the job done.

Mayor Pro-tem Pearson inquired of the savings in the runs of the garbage trucks if they were left at the Sanitary Fills instead of being driven back to the incinerator each night. It was stated if they were left out, watchmen would have to be provided.
